**HATTERAS NETWORKS EARNS INTERNET TELEPHONY'S PRESTIGIOUS
2010 TMC LABS INNOVATION AWARD**

HN6100 Multi-Service Ethernet Switching Platform Recognized for Exceptional Innovation

RESEARCH TRIANGLE PARK, NC, June 23, 2010 – Hatteras Networks announced today that Technology Marketing Corp. (TMC) named the HN6100 as a 2010 TMC Labs Innovation Award winner presented by its publication, Internet Telephony.

The HN6100 is a modular, multi-service platform designed to enable carriers to offer any service, over any media from one compact, ultra-dense chassis. The 40 Gbps, two-rack-unit provides unique, simple and flexible support for the complete range of Ethernet business services and mobile backhaul in a pay-as-you-grow platform.

The TMC Labs Innovation Award honors products that display innovation, unique features, and significant contributions toward improving communications technology. The TMC Labs Innovation Awards are granted to those companies demonstrating ground-breaking contributions to the industry.

“Our HN6100 enables a carrier to simplify configuration, integrate management and reduce its number of vendors when deploying Ethernet services, while providing a superior ROI.” These are product attributes that are important to our carrier customer base,” said M. Vijay Raman, VP of Marketing and Product Line Management at Hatteras Networks. “The design of the HN6100 has been widely accepted by the industry as indicated by our customer wins and numerous product awards since our product launch in October 2009.”

“Hatteras has demonstrated to the staff of TMC Labs that the HN6100 is truly innovative in the IP Communications industry. Hatteras has made contributions which have resulted in significant

advancement to the industry,” said Rich Tehrani CEO, TMC. “We’re proud to reward Hatteras’ hard work with a TMC Labs Innovation Award this year.”

The 2010 TMC Labs Innovation Award highlights will be published in the July and August 2010 issues of *INTERNET TELEPHONY* magazine.

About INTERNET TELEPHONY magazine

INTERNET TELEPHONY has been the IP Communications Authority since 1998™. Beginning with the first issue in February of 1998, INTERNET TELEPHONY magazine has been providing unbiased views of the complicated converged communications space. INTERNET TELEPHONY offers rich content from solutions-focused editorial content to reviews on products and services from TMC Labs. INTERNET TELEPHONY magazine reaches more than 225,000 readers, including pass-along readers. For more information, please visit www.itmag.com

About Hatteras Networks

Hatteras Networks is redefining the way carriers think about Ethernet services. Hatteras Networks’ Carrier Ethernet service delivery solutions are leading service providers worldwide to a significant expansion of the Metro Ethernet market, which had previously been limited by legacy technologies in the access network. Now service providers are empowered to cost-effectively offer 100 Mbps Ethernet services over existing facilities, enabling businesses to migrate from legacy networks to transparent Ethernet services for voice and data business connectivity, infrastructure backhaul and mobile wireless backhaul solutions via copper and fiber.
